Figure 8 NFB Site Overview and Area of Concern Map-proposed revision.pdf
2013-2014 EPA Pre-Remedial Assessment Report.docx

Thanks Ben. Please let me know.

This is a priority. We are submitting the Action Memo today. I have to ask you a favor. Can you please revise these two Figures?

- Figure 7. This is so busy with all the results. Can we get the figure with just the Ra226 and Ra-228 results? Also, increase the font size of those results. Please send the image file so it is clearer for the document.

- Figure 8-Can you expand the footprint to include the area around N001-SS007? I have pointed it out on the Figure attached. This would be Figure 8b? Since we already had an 8a? Please send the image file so it is clearer for the document.

Please let me know if you can accomplish this in a short period of time.
Thanks as usual.

Good morning Eric,

I will look through list of parameters analyzed at all the Rad. sites to confirm we are not missing any.

Thanks,

Ben Nwosu

Subject: NFB Rad specific action levels for other radionuclides
Importance: High

Hi Ben:

Below are the numbers for each radionuclide at NFB. Please let me know if any are missing.

<u>Radionuclide</u>	<u>pCi/g</u>
Ac-228	124000
Bi-212	6260000
Bi-214	1290000
Cs-137	10.8
K-40	26.6
Pb-212	653000
Pb-214	7180000

Ra-226	2.48
Ra-228	15.6
Th-228	13200
Th-230	1870
Th-232	1800
Tl-208	3380000
U-234	2960
U-235	40.6
U-238	162
